

Scale Model Challenge 2019

WORKSHOP OUTLINE

Tue Kaae

Building a better idea

Saturday October 19
15:45-18:45

Skill Level: Advanced

Price: € 30

This will be a mostly theoretical lecture about how to pre-construct and develop your projects. It'll be about when and how to receive feedback, about condensing and refining ideas and storytelling.

In this lecture you'll also learn how to challenge yourself appropriately and how to reach a higher level. Tue will go through the different methods he has used himself in different projects and how to apply them to your own. This workshop is in short about all the stuff in a project that isn't about physical application, but rather how to find your way in the softer values of miniature art.

The only thing you'll need to bring to this lecture is an open mind and a willingness to learn, and maybe pen and paper (or something more contemporary)
