Underpainting techniques & advanced contrast paints

Sunday October 15

10:00-15:00

Skill Level: Any

Ticket Price: € 85

A deep dive into Renaissance underpainting techniques and how to use them in miniature painting with modern tools like Contrast Paints and Inks!

From speed and army painting to high quality display models, I'll show you how and why these methods have been used for centuries by classic painters to ease, speed up and of course improve the quality of their masterpieces and how this knowledge can be easily applied to our little canvases.

This is a "Brush Only" Workshop. Contrast Paints, Inks or similar products are recommended for the workshop, but don't worry if you don't own/can't bring them: we'll have a shared pool during the course and part of the topic is precisely what to use as an alternative!

The students should bring: Brushes and a wet palette, a small selection of their favorite acrylic paints (just a few basic, saturated hues that we can easily mix) and, recommended but not mandatory, GW Contrast, Inks, or similar products.

The SMC organizers will provide some small materials and disposables, like water cups, paper towels, etc.

We provide power strips **but we do not provide desk lamps or extension cords**. Please bring your own, and remember that we have Euro plugs and 230V. Check if your electronic devices require a plug adapter.
