Saturday October 17

09:30-13:30

Skill Level: Intermediate

Ticket Price: € 100

But included in the price

The purpose of this class is to explore the fundamentals of painting atmosphere. We will focus on how value distribution shapes the perception of light. With this we'll create the feeling of a directional light source within a dark scene.

We will "respect the blacks", learning how to keep shadows rich and readable.

Anastasia will bring some blacks & off blacks to complement the students own colours

Students should bring a wet pallet, paintbrushes and a few of their favourite colours.

The SMC organizers will provide some small materials and disposables, like water cups, paper towels, etc.

We provide power strips **but we do not provide desk lamps or extension cords**. Please bring your own, and remember that we have Euro plugs and 230V. Check if your electronic devices require a plug adapter.
