Workshop Outlines

Oliver “Honourgard” Späth

Title class: Creating a Winter base with Oliver “Honourgard” Späth

Friday October 16

13:00-18:00

Skill Level: Any

Ticket Price: € 80

The purpose of this class is to create a nice Winter base with snow effects, icicles and water effects.

The workshop will include a new sculpted base by Oliver. The base will be a 60mm diameter plinth with an oval on top. The students will have the possibility to add a miniature or animal of their choice to the base. They'll also be able to make some last adjustments to wrap up the sculpting phase of the base.

After that the workshop will focus on the painting of the base. And finally snow and ice effects will be added.

A selection of miniatures and animals for the class will be included. However, the painting process of those will not be the topic of the workshop (due to time constraints). They are included because they help to create a nice setting and atmosphere and get a good view on the complete composition.

Students should bring a wet palette, a sculpting tool, brushes, colours of their choice (take into account the Winter theme) and a painting lamp.

The SMC organizers will provide some small materials and disposables, like water cups, paper towels, etc.

We provide power strips **but we do not provide desk lamps or extension cords**. Please bring your own, and remember that we have Euro plugs and 230V. Check if your electronic devices require a plug adapter.
