Workshop Outlines

Use volumes, upgrade your painting!

Saturday October 17

13:30-17:30

Skill Level: Beginner/Intermediate

Ticket Price: € 95,-

Paints, brush and figure are included in the price

You just started painting mini's – probably something table top - you got the basics down and manage to not spill your paints, but now you really want to get to that level where it looks the part. You know how to base-wash-highlight your models, but they just seem to stay at that table top level? Then this is the bump up you might need!

In this training you'll learn about painting volumes, by understanding how to look at shapes, and think about shadows and light placement, and then put all of that to the test on a model.

Also, if you bring one of your pre painted models to the workshop, if time permits, we will discuss how to improve it using the knowledge gained, and apply it!

The Army Painter will be sponsoring this workshop with a set of paints and brushes for every participant, that we will be using. You will also get a fitting practice model to work on.

Students should bring their own lights and a wet palette. You CAN bring your own paints, brushes, holders if you want. Maybe a notepad. Yeah, a notepad would be a good bet. You decide. Go nuts!

The SMC organizers will provide some small materials and disposables, like water cups, paper towels, etc.

We provide power strips **but we do not provide desk lamps or extension cords**. Please bring your own, and remember that we have Euro plugs and 230V. Check if your electronic devices require a plug adapter.
